ABOUT THE PROCESS

- Every visa process is a personal process. However, we assist them by providing the information requested by the embassy, the type of visa, the required documents, the processing time and the cost.
- We will also provide you with the formats such as university agreement, recommendation letters, employment letters and other related documents. We will review your documents to ensure their correct delivery to the embassy.

WHY DO I NEED PROOF OF FUNDS?

- They are a requirement of embassies and governments, since they need to know that there is someone in their country of residence who can help them with some extraordinary expense while they are abroad. It is not necessary that it be a single account statement, it can be a combination of multiple, as long as they are from direct relatives (blood line). The amount that is requested to be verified must not be paid to anyone.

VISA SPONSORSHIP

- This is exclusive to US programs
- All nationalities (except US citizens) require a J1 visa with a sponsorship package, which already includes health insurance, for the program to run. It is a fee paid to a US government extension, the price is not determined by us. Other types of visa cannot be used.

WHAT HAPPENS IF THEY DENY MY VISA?

- You should note that the visa process is separate from the internship placement process and therefore visa acceptance cannot be guaranteed.
- If you are denied a visa, you must apply a second time after we have reviewed all your application documents again. If you choose not to, no refund will apply.
